Tangerang, Banten, Indonesia

A fresh graduate majoring in Computer Science at Binus University. Concentrating in Artificial Intelligence. I love to learn new skills which will benefit my life. I like to solve problems and think creatively. I'm currently experienced in making front-end section of website, using Laravel for backend, UI/UX Design and Development, data analysis in python, and making machine/deep learning models for classification and regression. I am also experienced in Entrepreneurship.

EDUCATION

Binus University   **Kemanggisan, Jakarta**
Bachelor in *Computer Science* | GPA: 3.57 / 4   2019 - 2023

I am an active participant in Binus' Photography Club Klifonara. I also volunteers to produce online content in a form of posters about environment and health with my friend. I have also produce several custom websites and UI concepts as my university project.

Binus University   **Kemanggisan, Jakarta**
Master in *Computer Science* | GPA: 3.9 / 4   2023 - 2024

I have made a research paper currently under review in a publishing journal. My research paper involves the combination of Autoencoder and CNN+GRU to classify sleep apnea using ECG signal. I have also made many more projects involving the use of machine and deep learning.

WORK EXPERIENCE
